Education

B.E Computer Science and Engineering
Chennai Institute Of Technology

2021 – 2025
CGPA - 8.3

Experience

Surens Infotek Company
Data Science Intern

06/2025 – 12/2025

- Gained hands-on experience in **handling and processing large datasets**, performing data cleaning, transformation, and extracting actionable insights.
- Applied **data science and machine learning techniques** to build, train, and refine **predictive models** for forecasting trends and outcomes.
- Designed and developed **data visualizations and dashboards** to effectively communicate analytical findings and support **data-driven decision-making**.

Intern Crowd

07/2023 – 07/2023

Web Development Intern

- Gained expertise in **frontend development** by working on different tasks, to build **real time projects** effectively. Enhanced my problem-solving skills and gaining hands-on experience in **debugging and optimization**.
- **Collaborated effectively** with team members to coordinate project enhancements and delegate assignments.

Projects

Expense Tracker

07/2024 – 08/2024

Tech Stack: HTML, CSS, JavaScript, Node.js, MongoDB

- Provide users with a user-friendly tool to track income and expenses.
- Categorize Spending and Set Budgets: Help users organize their expenses and establish budgets for better financial discipline. Enable users to create comprehensive reports, supporting informed financial planning and control.

Driver Drowsiness Detection System

11/2023 – 12/2023

Tech Stack: Python, OpenCV, Numpy

- Enhanced road safety by developing a driver drowsiness detection system with a arm mechanisms and condition flexibility.
- Added alarms, visual cues, and audio to quickly alert drivers when they are sleepy, improving road safety overall. Utilized OpenCV and Dlib libraries for facial and mark detection and eye-tracking.

Medi Data Hub

Tech Stack: Full stack, HTML, CSS, Javascript

- Developed a web-based healthcare management system (Medi Data Hub) to streamline hospital operations including appointment scheduling, billing, and patient record management.
- Designed a responsive and user-friendly interface using HTML, CSS (Flexbox & Grid), ensuring accessibility and seamless performance across devices.
- Implemented dynamic features using JavaScript such as real-time form validation, appointment booking, and interactive dashboards, enhancing overall user experience and system efficiency..

Skills

Datascience

PowerBI, Tableau,
Exploratory Data Analysis (EDA)
Model Evaluation & Optimization

Programming

Java
Python

Web Development

HTML, CSS
Javascript

Database

My SQL
MongoDB

Certificates

- Complete Web Development Bootcamp - Udemy
- HTML, CSS, JavaScript – Coursera

Achievements and Activities

- **Skillrack** - solved more than 100 problems.
- **Code Chef** - contest rating with 1608 and solved more than 130 problems.
- Worked as a event Organizer in a technical team (**paper presentation**) in college events
